- ▶ De onderdelen vermeld in deze lijst, zijn normaal uit voorraad leverbaar, behoudens uitverkocht. Ook niet vermelde onderdelen kunnen binnen de kortste tijd uitgeleverd worden. De O.E.M. referenties dienen enkel ter indicatie en impliceren niet dat deze van de vermelde heftruckconstructeur afkomstig zijn. Deze onderdelenlijst kan zonder enige voorafgaande verwittiging aangepast worden. Alle gebruikte foto's, tekeningen, afbeeldingen, merknamen, omschrijvingen en nummers dienen alleen ter identificatie.
- ▶ Les pièces de rechange, mentionnées dans cette liste, sont normalement livrables du stock. En plus, les articles non-indiqués peuvent être fournis en peu de temps. Cette liste peut être modifiée sans avis préalable. Les références O.E.M. sont seulement indicatives et n'impliquent pas que les pièces de rechange viennent du constructeur de chariots élévateurs. Toutes les photographies, illustrations, marques, descriptions, tous les plans et numéros servent exclusivement à une identification.
- ▶ Die in dieser Liste aufgeführten Teile sind normalerweise aus dem Lager lieferbar. Wir sind zudem in der Lage nicht aufgeführte Teile innerhalb kürzester Zeit zu liefern. Die O.E.M. Referenznummern dienen zur Information und beinhalten nicht, dass diese vom genannten Gabelstaplerhersteller kommen. Diese Bestandsliste kann ohne vorhergehende Ankündigung geändert werden. Alle verwendeten Foto's, Zeichnungen, Abbildungen, Markennamen, Beschreibungen und Nummern dienen nur zu Identifikationszwecken.
- ▶ The spare parts mentioned in this list can normally be delivered from stock. In addition, we can supply parts, which are not mentioned in this catalogue, with the shortest possible delivery time. The O.E.M. references are only for indication purposes and do not imply that the spare parts are coming from the forklift manufacturer. This spare parts list can be modified without prior notice. All photographs, drawings, illustrations, brand names, descriptions and numbers are included for identification purposes only.
- ▶ I pezzi di ricambio, menzionati in questo listino, possono essere forniti di consegna immediata a condizione che non sono esauriti. Pezzi di ricambio non menzionati possono essere forniti in poco tempo. Le referenze O.E.M. sono solamente indicative e non implicano che i pezzi di ricambio vengono di questo costruttore di carrelli elevatori. Questa lista ricambi può essere aggiornata senza avvisi anticipati. Tutti i numeri, codici, nomi, foto, spaccati e disegni sono solo a titolo informativo.
- ▶ Normalmente tenemos en almacén las piezas de recambio mencionadas en esta lista microfichera. Tenemos la posibilidad de suministrar las piezas de recambio no mencionadas. Los números de referencia O.E.M. sirven solamente como indicación y no implican que vienen del constructor de las carretillas elevadores. La lista de almacén puede ser adaptada sin aviso anterior. Todas las fotos, despieces, nombres de marca, descripciones y números sólo sirven para identificación.

- Oil change hose (small)
- Oil change hose (large)

- REF./ 107TA1747**
- REF./ 106TA2971**

HOW DOES THE PLUG WORK ?

From now on, the normal carter stop will be replaced by the carter plug, fitted with a dust cap that stops dust and dirt from entering the line.

CHANGING OIL:

Remove the dust cap and screw the drain and hose on the carter plug. This will automatically open a valve in the plug and the oil will flow through the hose.

AIR PURIFIER

How the Turbo Precleaner works:

- 1) The Turbo II pre-cleaner has a specially designed blade that causes the incoming air to spin.
- 2) As the air spins, the centrifugal force separates dust, dirt, insects, rain and snow from clean air.
- 3) Contaminants are blown out special discharge ports by a high velocity, air powered rotor.
- 4) Only the purified air goes to the air filter

TURBO III

- Durable glass-filled nylon construction.
- Smaller and lighter.

dynamic air filters

Save fuel, time, money, air filters and engines.

Turbo II Pre-cleaners remove up to 98+% of all air contaminants including dust, powder, insects, rain and snow. Eliminating dirt and debris from intake air, ahead of the air filter, keeps your engine running at maximum power and efficiency.

Turbo II Pre-cleaners remove 50% more dust and dirt than most original pre-cleaners.

Cleaner air means extended filter life, cleaner oil means reduced engine wear and improved performance. Engine maintenance costs and down time is greatly reduced.

Turbo II Pre-cleaners are self-powered and self-cleaning requiring virtually no maintenance.

All Turbo II Pre-cleaners carry a full one year conditional warranty, with the intake air powered rotor (or spinner assembly) guaranteed for the useable life of the unit.

For long life - maximum power

This filter purifies 99%, dust, insects, rain or snow...the turbo filter reduces damage and wear.

WATER ELIMINATORS

REF./ 106TA2990 (=2 pieces)
Large type

REF./ 107TA1754 (=10 pieces)
Large type

REF./ 106TA2989 (=2 pieces)
Small type

The water eliminator consists of a cylindrical cartridge, which is lined with a nylon mesh filter. The cartridge contains a small measure of dry crystals, which are chemically water “magnetic”, which means they will only accept water molecules into their structure. The crystals will expand to 500 times their own bulk in the presence of water.

To fit, remove the fuel filler cap and insert the cartridge into the tank securing the lanyard, the weighted cartridge rests on the bottom and extracts water from the fuel as it condenses. The cartridge should be checked at each re-fill and discarded when full.

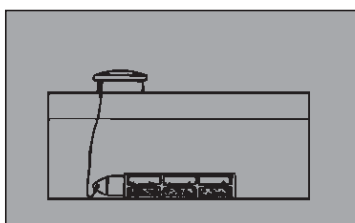

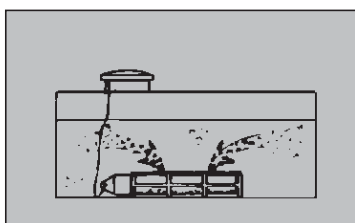

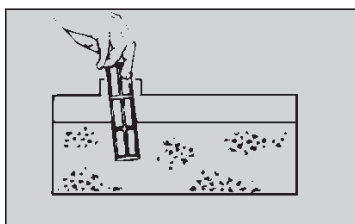

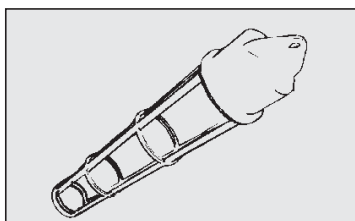

Removing water from the fuel systems extends the life of filters, fuel pumps and injectors.

The safe and easy way to remove water from your fuel system.

For use in:

- Diesel
- Petrol
- Kerosene
- Fuel oil
- Hydraulic fluid
- Mineral spirits

1
2
3
4

PRODUCT BENEFITS:

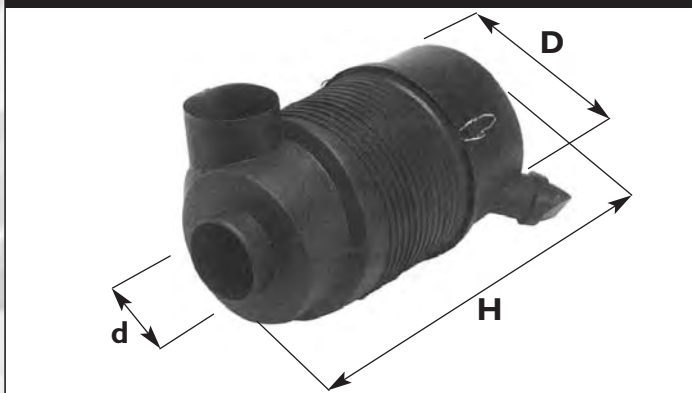

- Extended filter, pump and injector life
- Reduced maintenance costs
- Easy installation and safe disposal
- Trouble free efficient running
